

2.G.A.2 Compare Fractions by Partitioning Rectangles

2.G.A.2: Partition a rectangle into rows and columns of same size squares (or rectangles) and count to find the total number of them.

Color the box of the greater fraction.

$$\frac{1}{3}$$

$$\frac{3}{6}$$

$$\frac{1}{10}$$

$$\frac{1}{5}$$

$$\frac{3}{6}$$

$$\frac{2}{3}$$

2.G.A.2 Compare Fractions by Partitioning Rectangles

Answer Key

2.G.A.2: Partition a rectangle into rows and columns of same size squares (or rectangles) and count to find the total number of them.

Color the box of the greater fraction.

$$\frac{1}{3}$$

$$\frac{3}{6}$$

$$\frac{1}{10}$$

$$\frac{1}{5}$$

$$\frac{3}{6}$$

$$\frac{2}{3}$$
