

## 2.MD.A.3 Estimate Lengths Using Centimeters or Meters

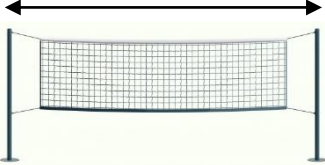

2.MD.A.3: Estimate lengths using units of inches, feet, centimeters, and meters.

A meter is the same as 100 centimeter

1. Measure short length using centimeters.
2. Measure distances and longer lengths using meters.

Choose the correct unit to measure each object below.

Object	Choose the unit	
	Meters	Centimeters
	Meters	Centimeters
	Meters	Centimeters
	Meters	Centimeters
	Meters	Centimeters

## 2.MD.A.3 Estimate Lengths Using Centimeters or Meters

### Answer Key

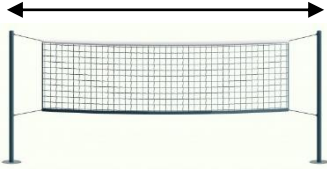

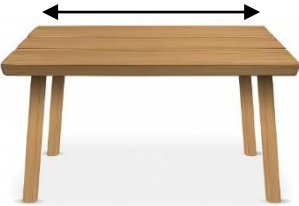

2.MD.A.3: Estimate lengths using units of inches, feet, centimeters, and meters.

A meter is the same as 100 centimeter

1. Measure short length using centimeters.
2. Measure distances and longer lengths using meters.

Choose the correct unit to measure each object below.

Object	Choose the unit	
	Meters	Centimeters
	Meters	Centimeters
	Meters	Centimeters
	Meters	Centimeters
	Meters	Centimeters
