

Name: \_\_\_\_\_

## Latin and Greek Suffixes Ist and Ar

Many suffixes we use in English originally come from Greek or Latin word endings. The suffix *ist* is from Latin and Greek meaning “one who makes or does.” The suffix *ar* is from Latin meaning “pertaining to.” The suffixes often change the of the root word. For example, the root *colony* means “settlement.” Combine *colony* with *-ist*, and it becomes the word *colonist*. Based on its plain original meaning, *colonist* means “one who makes a settlement” or a person who builds a new settlement.

Use the list in the bank to make five different English words out of *-ist ar*. You may add a prefix or change the spelling a little if needed. And Write a sentence for each word you make and circle the word you made with the suffix. Be sure to use words for both *-ist* and *-ar*.
